

2019 Research Funding Opportunities

DEADLINE

February 1, 2019

“

The Paul Calabresi Fellowship allowed me to venture down new paths during my thesis work. It enabled the discovery of chemical tools that are allowing me to investigate neural circuitry involved in addiction, which strengthens the impact of my science.

Awards in Clinical and Translational Pharmacology

PhRMA
FOUNDATION

PHARMACEUTICAL RESEARCH AND
MANUFACTURERS OF AMERICA

- Faculty Development Award in Clinical and Translational Pharmacology
- Paul Calabresi Medical Student Research Fellowships

APPLICATION DEADLINE: February 1, 2019 | Award Details at www.phrmafoundation.org

Call for Applications for Clinical and Translational Pharmacology Awards

“

The PhRMA Foundation faculty development award will help me obtain the perinatal pharmacology training necessary to launch an independent research career. With the necessary skill set, I look forward to advancing medication management for pregnant women.

”

Crystal Clark, M.D.
Northwestern University Feinberg School of Medicine
2016 Faculty Development Award in Clinical and Translational Pharmacology

We Offer the Following Two Programs

FACULTY DEVELOPMENT AWARD IN CLINICAL AND TRANSLATIONAL PHARMACOLOGY: The purpose of this award is to support clinical and basic scientists committed to pursuing a career in clinical-translational pharmacology involving both research and training. Award recipients will receive two years of support at \$120,000 per year. Ideal physician candidates will have at least two years of training at the residency level and two years of clinical experience in a research training program related to clinical pharmacology and translational medicine. Non-physician candidates must show experience and opportunity for highly collaborative work with clinicians and patient populations. Detailed eligibility criteria is listed on the website.

PAUL CALABRESI MEDICAL STUDENT RESEARCH FELLOWSHIPS: This \$18,000 fellowship offers support to medical/dental students who have substantial interests in

research and teaching careers in pharmacology/clinical and translational pharmacology and who are willing to work full time in a specific research effort.

The principle aim of this program is to generate interest in research careers in pharmacology, including clinical-translational pharmacology, among medical and dental students. Students who are not already in a training sequence leading to a research career or students already in a M.D./Ph.D. program for whom additional financial support is appropriate are both eligible to apply.

Applications and eligibility criteria are available online at www.phrmafoundation.org and the application submission deadline is **February 1, 2019**. All applicants will be notified no later than **April 15, 2018**. These awards may be activated beginning **July 1, 2019**.

For over 50 years, the PhRMA Foundation has supported the field of drug discovery and the careers of scientific investigators, faculty members and physicians. By funding the research of more than 2,200 young scientists, the Foundation has helped pave the way for the future leaders of pharmaceutical research.
