The level of funding will depend on the scope of proposed activities. Payments are made on a quarterly basis to the institution. A maximum of twenty-percent (20%) of the award may be used for indirect institutional costs.

Award opportunities are open to all individuals and organizations with training in health economics, outcomes research, clinical sciences or health care evaluation. Eligible applicants should hold an advanced degree in a field of study logically or functionally related to the proposed activities, such as a PhD or equivalent.
